DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

On page 2 of the instant specification, the serial number and filing date of the copending application is missing,

On 7, line 13, plate 6 is referred to as "immovable plate" whereas on line 10 element 6 is referred to as "movable plate" This discrepancy is questioned.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, line 2, there is no antecedent for "said outer case".

In claim 4, there is no antecedent for "said spring means".

Allowable Subject Matter

3. Claims 1, 2 and 5-9 are allowed.
4. Claims 3 and 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3662

5. The following is a statement of reasons for the indication of allowable subject matter:

Independent claim 1 is considered allowable over the prior art of record in the claimed limitation the mass increasing element being formed as a further case which surrounds the two plates, is connected to the movable plate and is located in condition of equilibrium in an inoperative position of the sensor. None of the prior art patent include such a mass increasing element for a capacitive type seismic sensor.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
